Old People's Ears.

Thousands of old people and others hard of hearing have been entirely relieved by the use of Brazilian Balm. It dissolves away the hard wax, or in dry ears it restores the thickened, hardened drum to its normal, vibratory condition and removes all inflammation, soreness and dullness from the inner ear. Also stops ringing in the ears. Fill one ear with warm Balm, on retiring, and lie on the other side, so the Balm can work down into the innermost part of the ear. Treat the other ear the next night. Persevere. It may take time as it is an old trouble, but be faithful and your recovery will be sure.
